Q&A

What are your most popular products or services?

Our customers love our modern wedding invitations, graduation announcements, theme party invitations, holiday cards and luggage tags. Vibrant colors and fresh fonts are attention getters.

What tip would you give women who are starting a business?

Find a balance between work and life. The lines get blurred. When talking about work at home, focus on the excitement of new products and projects. And get enough sleep!

What is your favorite part about owning a business?

I believe with risk there is reward. I like to know that I have the final say and veto power. Also making deals and solving problems is fabulous.
